

AA ELECTRIC CONTROL & AUTOMATION

sprecher+schuh Motor Protection + Control Consultants

AA Electric and Sprecher + Schuh Ring in the New Year!

Sprecher + Schuh offers a wide range of low-voltage industrial control products, including contactors, a variety of relays, starters, push buttons, switches, terminals and controllers. Our products are crafted with precision and tested rigorously for performance, far exceeding industry standards. We constantly seek innovative ways to provide solutions for our global customers.

Sprecher + Schuh is the industrial control manufacturer of choice if you seek quality, reliability, and a name you can trust.

Series CA7 Contactors for General or Special Purpose Starting At Just 45mm Wide

The CA7 contactor series represents the most modern and flexible IEC power contactor available today. A wide selection of contactors covers the entire CA7 horsepower range (up to 75HP @ 460/575V). Six of the contactors are only 45mm wide, an extremely small footprint for such rugged performance.

The CEP7 solid state overload relays offer superior motor protection with advanced features like:

- Selectable trip class and field-installable modules
- Wide current adjustment range of 5:1
- Robust, self-powered design with mechanical and electrical mounting
- Self-sealed latching mechanism

D7 Pilot Devices for High Performance Control, Signaling And Switching

Sprecher + Schuh's rugged D7 pilot devices offer maximum flexibility and a wide choice for all applications. This 22mm line is aesthetically appealing and modularly designed to make assembly and interchangeability easy. The D7 operators are available in two different body styles to meet every application need. Both operators exhibit a low profile and stylish appearance while maintaining the rugged performance necessary for demanding environments.

PSC Series Next Generation Softstarter Intelligent Controllers

We offer a full line of softstarter controllers that utilize reliable solid state electronics to soft start three phase induction motors. Various options such as "soft-stopping" and braking are also available.

The PCS Softstarter Controller is one of Sprecher + Schuh's newest solid-state controllers, with rich features at an economical price. This softstarter is specifically designed to start 3-phase motors (up to 400HP@460V / 500HP@575V), but is very compact, easy to use and DIN-rail mountable for models up to 85A. Four standard starting modes are available with the PCS Controller:

- Soft Start
- Soft Start with Selectable Kick-Start
- Current Limit Starting
- Soft Start with Soft Stop
