VLT® Micro Drive FC 51

The VLT® Micro Drive FC 51 is small and yet powerful and built to last. Panel space can be saved and

installation costs reduced thanks to its compact size and minimal commissioning requirements.

Despite its compact size and easy commissioning, the VLT Micro Drive can be set up to perform perfectly even in complex applications. It is supported by guided programming of specific functions and the use of a PC software tool for parameterizing. And, thanks to its coated PCBs, the drive ensures reliable and cost-effective operation also in demanding environments.

VACON X Series Are The Toughest AC Drives on the Planet

The **VACON X Series** is a rugged family of variable speed AC drives, built and designed for harsh industrial environments. They come with IP66/UL Type 4X and IP55/UL Type 3R enclosures for the ultimate protection from potential hazards such as moisture, dust or extreme temperatures.

VACON X4 and **VACON X5** offer high performance and a load of features for a wide range of industrial or outdoor applications with capabilities ranging from simple press-and-run keypad operation to a real-time clock, advanced PLC functions and a USB port interface.
